RS e-tron GT Debut

Open-close screen start-up, acoustic photoelectric baking xie weifeng and RS e-tron GT were presented on stage at the same time as super star, global ambassador

A8L Horch Premiere Debut

A liftable LED screen is set in front of the A8L Horch show car. Prior to the A8L Horch's official unveiling, the stage screen was responsible for presenting the luxury of the brand. Modern Luxury, while the liftable LED screen told the story of "Horch" by showing a series of historical materials, highlighting the "true luxury" that has survived the era. After the show, the LED screen dropped and the A8L Horch was officially unveiled.

THANKS!
